SKILLS

- React
- Zustand
- Redux
- ES 5/6
- HTML/CSS
- TypeScript
- Eslint
- Vite
- Git & Github
- Cursor
- REST API Integration
- Web Sockets Integration
- Google Maps API Integration
- Responsive, adaptive, cross-browser markup
- Material UI
- Capacitor Mobile App Development
- AI-Assisted Development
- HighCharts

LANGUAGES

English  
Hindi  
Telugu

SOFT SKILLS

- High learnability
- Attention to detail
- Flexibility
- Problem solving
- Curiosity
- Interest in Helping Others

JEEVAN PRABHATH PENDEM

TECHNICAL LEAD | REACT DEVELOPER | 10+ YEARS EXPERIENCE | BUILDING SCALABLE APPS

SUMMARY

Highly accomplished **Senior Frontend Engineer & Technical Lead** with a decade of expertise architecting robust, scalable client-side systems. Deeply skilled in optimizing development throughput, streamlining front-end workflows, and leading cross-functional teams to build intuitive, user-centric interfaces. Recognized for elite execution speed, modernizing legacy systems, and seamlessly deploying cross-platform architectures that elevate overall software delivery metrics and product performance.

EXPERIENCE

Front-end developer and Technical Lead Mar 2015 - Feb 2026 ORBCOMM

- Data-Dense UI & API Integration:** Architected scalable frontend dashboards, seamlessly integrating complex APIs to display and manage massive, high-volume datasets.
- Geospatial & Mapping Systems:** Built interactive location tracking by integrating API payloads with Google Maps APIs to render live data layers.
- Real-Time Data Streaming:** Implemented low-latency, live UI updates and persistent connections utilizing WebSockets.
- UI/UX & Backend Synergy:** Partnered with designers to ensure pixel-perfect layout execution and worked with backend teams to streamline server-side data integration.
- Clean Code & Mentorship:** Authored clean, maintainable code and conducted comprehensive code reviews to maintain high engineering standards.
- Performance Optimization:** Maximized rendering speeds by reducing bundle sizes, implementing code-splitting, and minimizing server requests.
- Testing & Cross-Browser Reliability:** Debugged complex client-side issues to ensure flawless cross-browser compatibility and smooth user experiences.
- Analytics, Accessibility & Compliance:** Integrated marketing analytics tools and ensured application adherence to modern web accessibility (WCAG) standards.

Web developer Jul 2012 - Jun 2015 Verizon Data Services India Pvt Ltd

- Developed and maintained websites using HTML, CSS, JavaScript, and other web technologies.
- Collaborated with designers and stakeholders to translate design mockups into functional websites.
- Implemented responsive web design principles to ensure websites functioned smoothly on various devices and screen sizes.
- Conducted website testing and debugging to identify and fix any issues or errors.
- Optimized website performance and speed through techniques such as code minification and image optimization.
- Managed website content and updated it regularly to keep the website current and relevant.
- Implemented security measures to protect websites from potential threats and vulnerabilities.

UI Developer Jan 2012 - Jul 2012 Microsoft

- Weather & News Applications:** Developed high-performance UI modules for the Windows Weather and News ecosystem.
- Dynamic Data Rendering:** Implemented advanced JavaScript and responsive designs to deliver real-time weather data and news feeds to millions of global users.

**UI Developer**  
Vriddhi Technologies

Jul 2010 - Apr 2012

- Developed client-centric web applications and managed end-to-end frontend delivery.

**EDUCATION**

---

**B.Comm Computers**

Mar 2006 - Mar 2009
